### 1 To assemble the **BASE**, you will need these pieces:

 × 4 ( long screws )

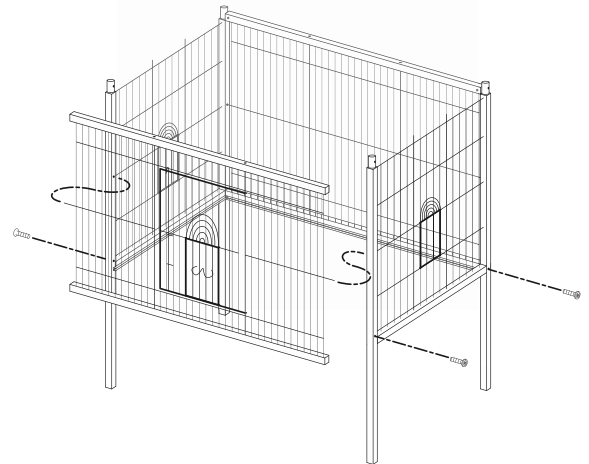

Note: The tray/grill tracks at the **BACK** stop *before* the back leg.

Align the extended center wire on the **back panel** with the hole on the side panel frame leg.

Attach panels together with a long hex screw at the bottom. Leave the top screw out until later in the assembly.

Complete the base assembly in the same manner, attaching the panels only at the bottom.

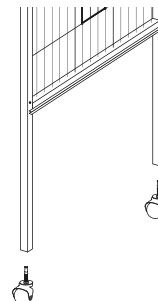

### 2 To add the **ROLLING CASTERS**, you will need these pieces:

 × 4

The rolling casters can be added at any point in the cage assembly.

Carefully tip the cage on its side.

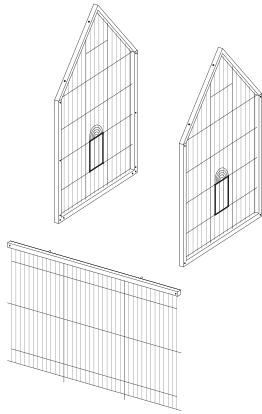

Fully insert the post of the casters into the holes in the base of all four frame legs.

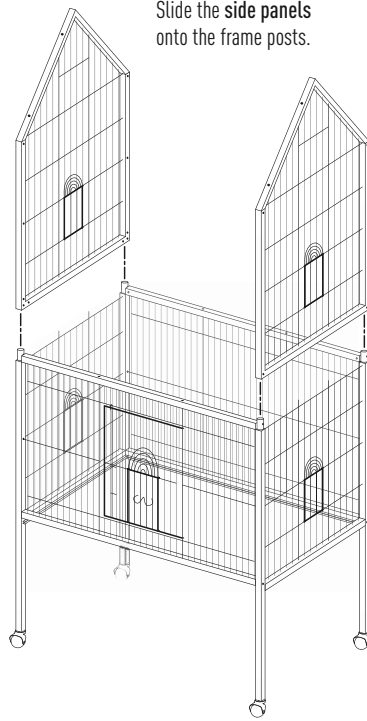

continued...

# 3

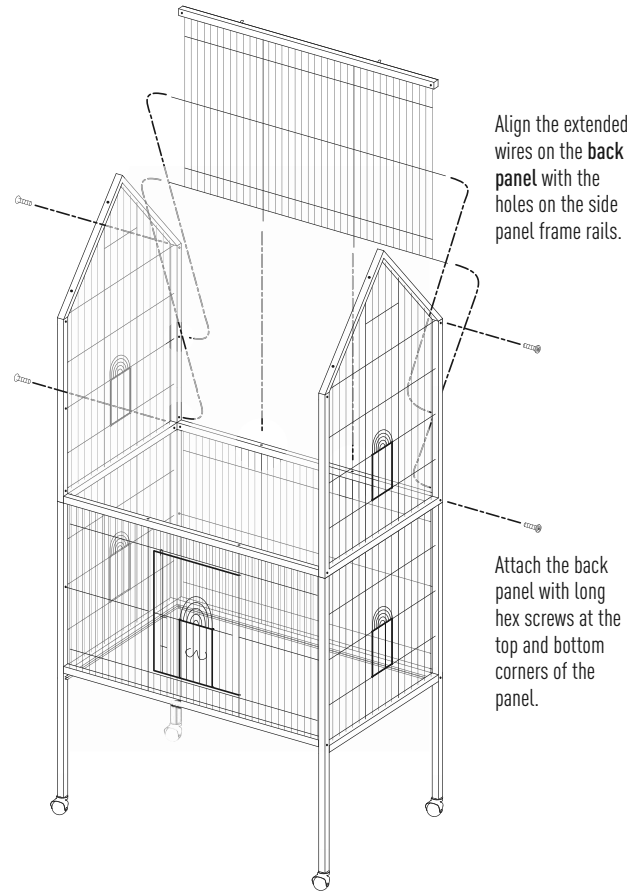

To assemble the **UPPER CAGE**, you will need these pieces:

✕ 4 ( long screws )

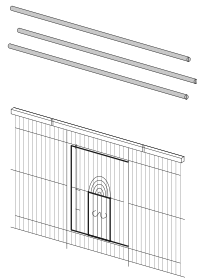

Slide the side panels onto the frame posts.

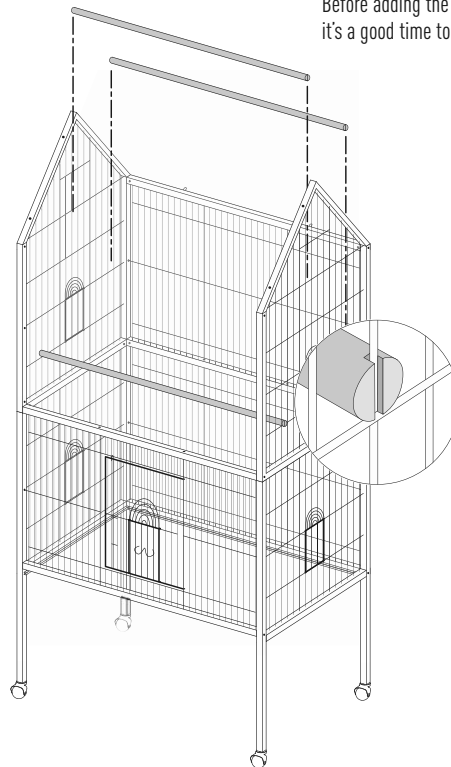

Align the extended wires on the back panel with the holes on the side panel frame rails.

Attach the back panel with long hex screws at the top and bottom corners of the panel.

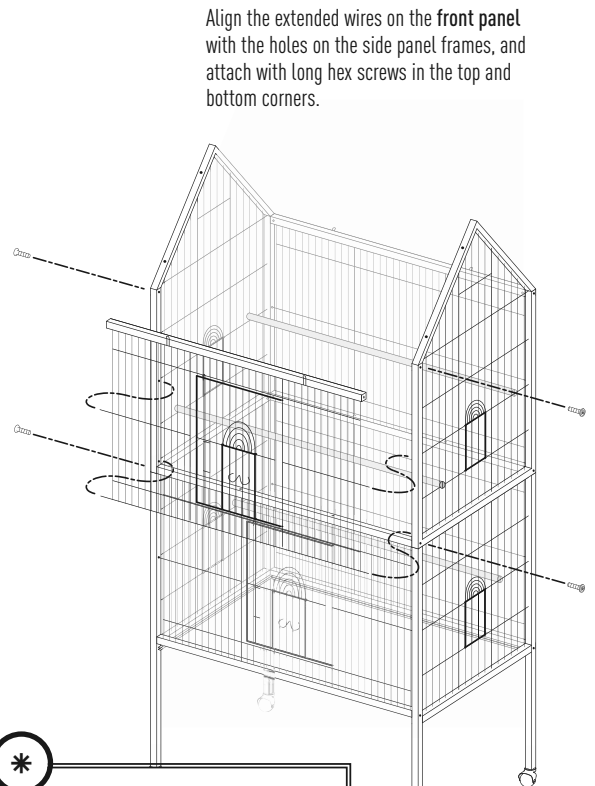

To finish, you will need these pieces:

✕ 4 ( long screws )

Before adding the top front panel, it's a good time to add the perches.

Align the extended wires on the front panel with the holes on the side panel frames, and attach with long hex screws in the top and bottom corners.

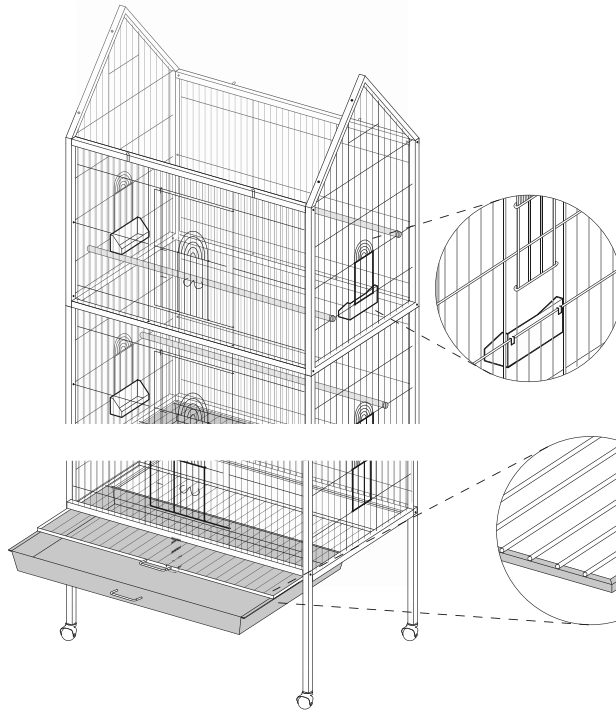

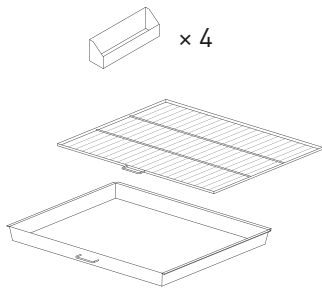

At this point, check and tighten ALL screws over the entire cage to ensure a safe and stable home.

continued...

# 4

To install the **COMPONENTS**, you will need these pieces:

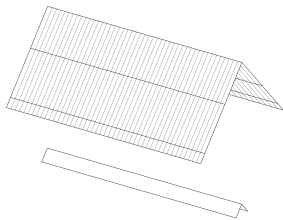

**Food/water cups:**  
Hook the **cups** onto the horizontal wire under the doors on the side panels.

**Grille and tray:**  
Slide the **grille** into the top channel and the **tray** into the bottom channel.

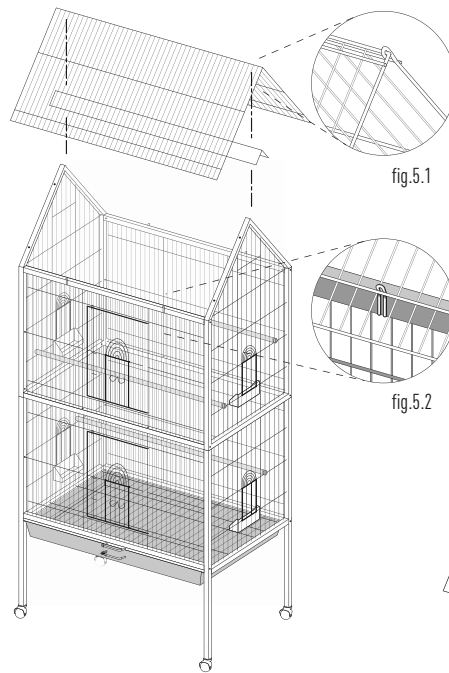

# 5

To install the **ROOF**, you will need these pieces:

 × 4 ( long screws )

 × 8 pair

Lay the V-shaped **roof beam**, centered, across the peak. Lay the **roof mesh**, centered, on top.  
Hook the roof onto the loops along the top edge of the front and back panels. (See fig.5.2)

fig.5.1

fig.5.2

Secure the roof with **short screw + washer** pairs in eight places along the roof frame.
