

# Ferret/Small Animal Home

Model: # 480

## read first REVIEW BEFORE ASSEMBLY

• **TOOLS:** No tools are required.

For assistance or replacement parts, please contact Prevue:

**TOLL-FREE** 800.243.3624

**ONLINE** [www.prevuepet.com](http://www.prevuepet.com)

**EMAIL** [customerservice@prevuepet.com](mailto:customerservice@prevuepet.com)

**1** To assemble the **BASE**, you will need these pieces:

Removable tray will already be in the base. Turn the base up-side-down and press caster posts into their holes. Casters are fully inserted when you hear a 'click'.

Place grilles into base.

**2** To attach the **LOWER CAGE**, you will need these pieces:

Expand LOWER CAGE mesh until fully opened. You can identify the lower mesh by the lack of guide tabs and wire clips along the bottom wire.

Mesh sits in base, between edge and raised guide tabs. (Fig. 2.1)

Secure mesh to base with clips on both sides. (Fig. 2.2)

**3** To assemble the **URINE GUARD**, you will need these pieces:

Assemble the urine guard completely. Carefully snap pieces together (Fig. 3.1). The post is fully inserted into the receiving hole when you hear a 'click'.

Slide entire guard down around mesh. Thinner bottom edge sits between base rim and inner-rim guide tabs.

**4** To install a **PLATFORM** and **RAMP**, you will need these pieces:

Snap the ramp onto the platform from underneath (Fig. 4.1).

Ramp and platform are fully attached together when you hear a 'click'.

[FIG. 4.1]

Install the platform. Four clips along the platform rim clip onto the horizontal rail of the mesh.

**5** To attach the **UPPER CAGE**, you will need this piece:

[FIG. 5.1]

Open UPPER CAGE mesh fully. Identify the upper mesh by the alignment tabs along bottom wire and the hanging wire clips on side panels.

Align the upper mesh with the bottom mesh using the alignment guide tabs (Fig. 5.1).

Secure the mesh together with wire clips on both side panels (Fig. 5.2).

Press down in the middle (apex) of the clip arch (Fig. 5.3) until it clicks into place.

[FIG. 5.2]

[FIG. 5.3]

**6** To install the remaining **PLATFORMS** and **RAMPS**, you will need these pieces:

Assemble as in Step 4.

**7** To install the **ROOF**, you will need this piece:

[FIG. 7.1]

[FIG. 7.2]

Flex the roof panel to catch loops along the top wire of the upper mesh.

On all sides, the center loop catches underneath (Fig. 7.1); loops to left and right of center catch over top (Fig. 7.2).

Your cage is now fully assembled.
