

1

PIECES

Attach the **right side panel** to the **back panel**: Start at the bottom and pull the "R" hooks over the outer-edge wire up the seam.

Done correctly, the seam will look like this →

Attach the **front panel/left side panel** seam together using the same method.

DETAIL OF INSIDE BACK, RIGHT CORNER

2

PIECES

Place the removable grille into the base and slide the removable tray into the opening.

Set the assembled mesh into the base. Hook the side panels up under the extended plastic tabs along the rim of the base.

3 PIECES

SNAP THE TWO-PIECE CUPS TOGETHER

Assemble the two-piece cups. Hold the hinged cup door up and insert a cup into place. Be cautious when closing the door—keep it from snapping down onto the cup.

Install perches on a vertical wire, and set the bottom to rest on a horizontal wire for stability.

4 PIECES

Hook the swing onto the roof before adding the roof panel to the cage.

Starting on one end, catch the roof on the tabs along the side.

Then, catch the roof on the tabs along the front and back panels. Finish with catching the rooftop on the tabs at the opposite end.

Assembly completed.

CLEANING INSTRUCTIONS

To prolong the life of your new Prevue Pet Products cage, we recommend:

- When cleaning the cage and parts, use a soft cloth or non-abrasive scrub pad (such as Prevue's Cage Saver (#109)).
- Wash all parts with warm water and a mild, pet-safe, environmentally friendly soap.
- Rinse thoroughly.
- Hand dry all parts completely with a soft dry cotton cloth before reassembling the cage.
- Do not leave plastic parts in the sun to dry as they may warp.
