**PHONE** 1 (312) 243-3624

**ONLINE** [www.prevuepet.com](http://www.prevuepet.com)

**EMAIL** [customerservice@prevuepet.com](mailto:customerservice@prevuepet.com)

## KEY:

- R = Roof
- LP = LEFT Panel
- BP = BACK Panel
- FP = FRONT Panel
- RP = RIGHT Panel
- B = Base

## HARDWARE:

**Corner Connectors**  
4 pieces

**Base Clips**  
6 pieces

**Cage Connectors**  
26 pieces

- 16 for cage assembly
- 8 for roof (optional)
- two extras

## RAMPS & PLATFORMS

**1** PIECES

• Insert the **connector** between the panels and twist 90°.

• Flip the connector up and click it onto the vertical wires, above and below the horizontal wire.

• Connect all panels together with the cage connectors; four along each corner seam.

**2** PIECES

• Set the assembled cage body into the **base**, making sure all bottom wires are positioned between the outer rim and inner raised tabs.

# 3 PIECES

- Push the **corner connectors** down over the corner seams.

- Hook the **base clips** onto the cage wire and clip them down under the base rim.  
One clip on each end; two each along the front and back.

# 4 PIECES

- Hook the **ramps** onto the **platforms** first.

- Insert the **platforms** into the cage (lower platform/ramp first).

Set the extended tabs over horizontal wires at an equal height along the front and back.

Push tabs down onto the wire to lock the platforms in place.

# 5 PIECES

- Set the roof on the corners, and arrange the extended wires as detailed:

- UNDER the cage body

- UNDER the cage body

- OVER the cage body

# \* OPTIONAL

x 8

CAGE CONNECTORS

- For additional roof closure security, add **cage connectors** along the front, back, and sides.

*For best results along the front and back, align the cage connectors with the heavier cross-wire, as illustrated.*

Assembly completed.
