 RP = Right Panel    FP = Front Panel  
 R = Roof    B = Base

**Connectors**  
8 pcs (+1 spare)

**Clips**  
2 pcs

**Corners**  
4 pcs

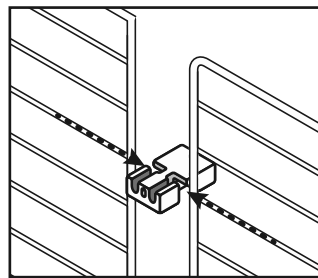

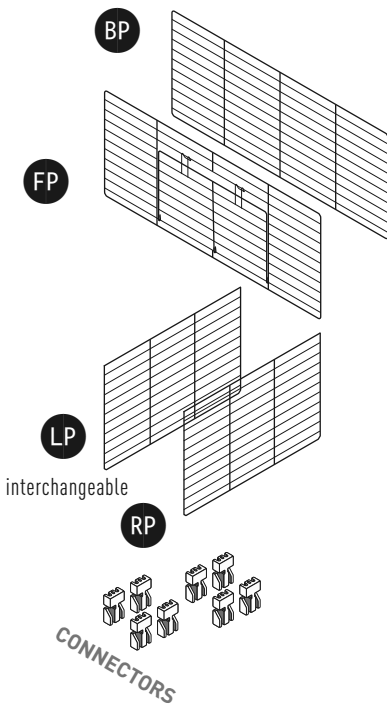

These pieces are interchangeable:

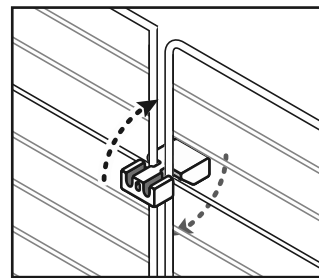

# ASSEMBLY

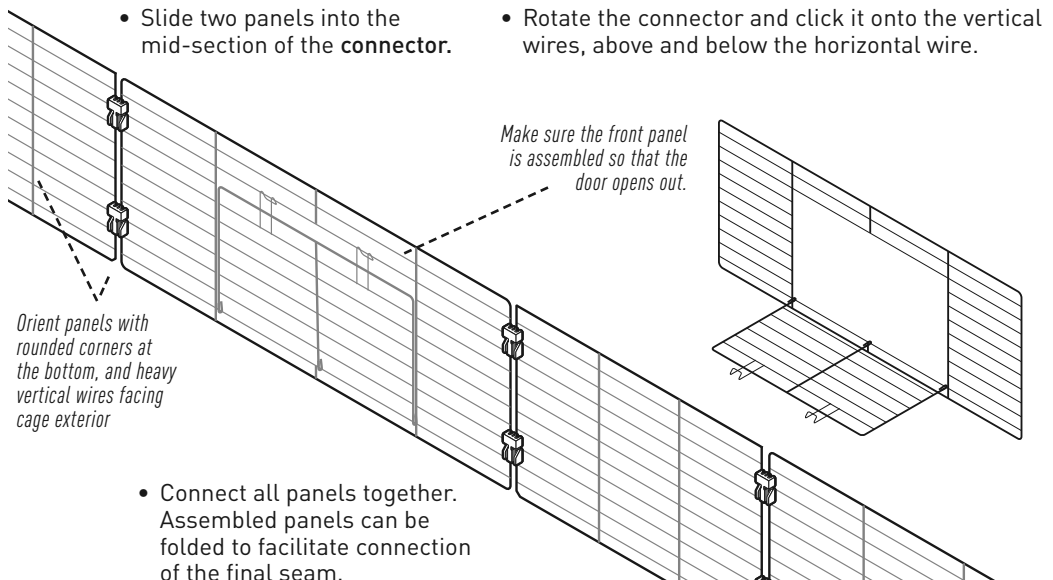

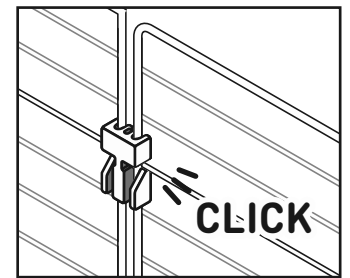

## 1 PIECES

• Slide two panels into the mid-section of the connector.

• Rotate the connector and click it onto the vertical wires, above and below the horizontal wire.

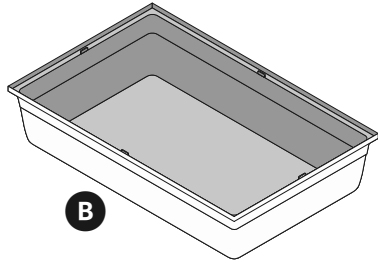

*Orient panels with rounded corners at the bottom, and heavy vertical wires facing cage exterior*

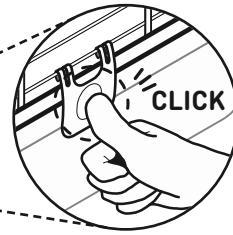

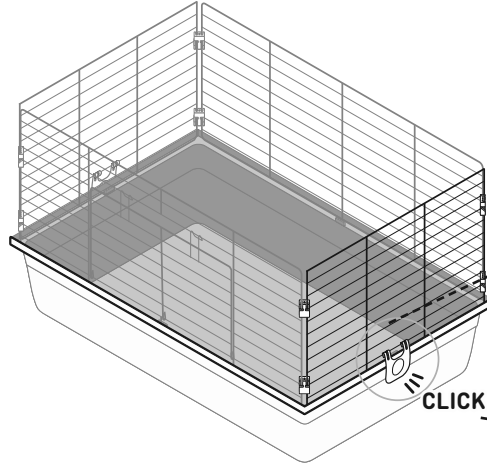

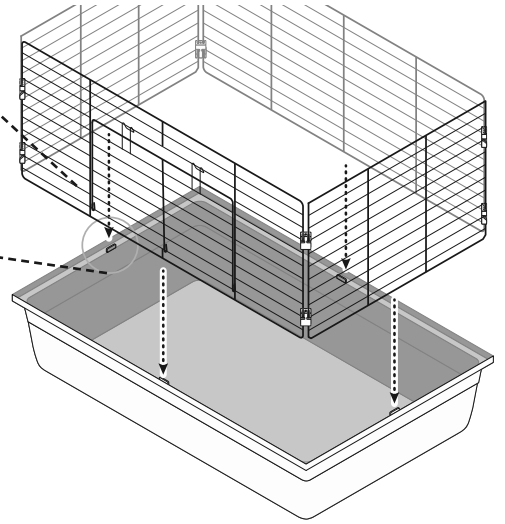

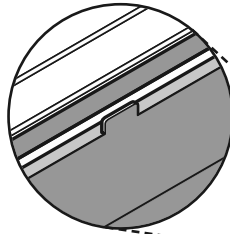

*Make sure the front panel is assembled so that the door opens out.*

• Connect all panels together. Assembled panels can be folded to facilitate connection of the final seam.

## 2 PIECES

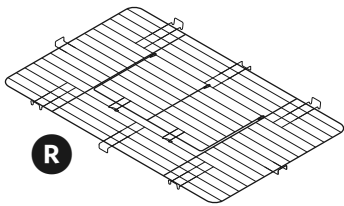

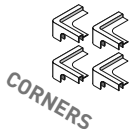

Add the assembled cage body to the **base**, making sure the bottom wires are placed between the rim and the inner tabs.

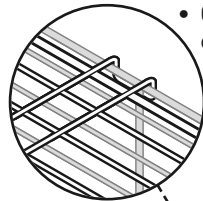

Hook the **clips** onto the side panels and click them onto the rim of the base.

## 3 PIECES

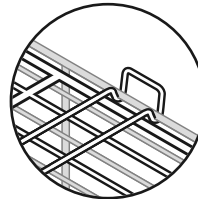

Insert the **corners** over the seams of the cage body.

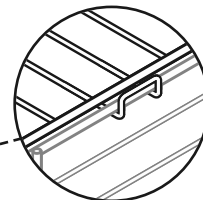

Place the **roof** on the corner connectors, arranging the extended wires as detailed:

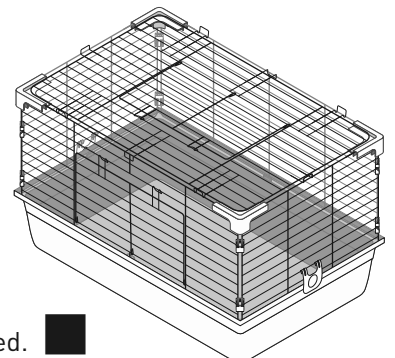

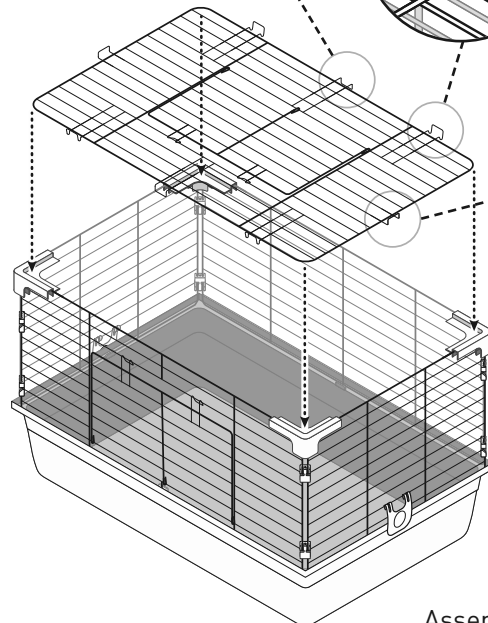

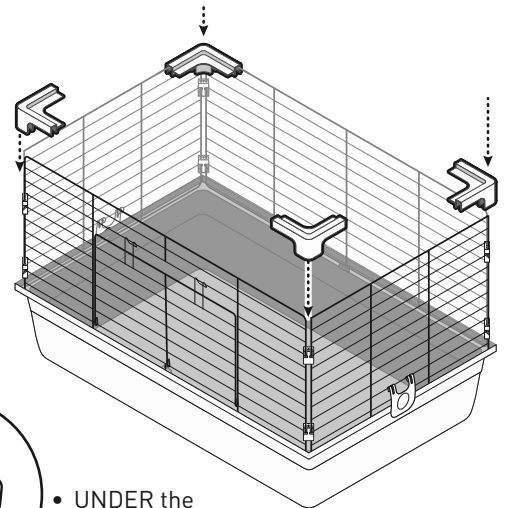

• OVER the cage body

• UNDER the cage body

• UNDER the cage body

Assembly completed. ■
