

1 PIECES

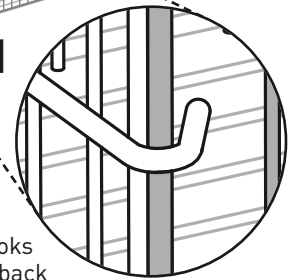

Unfold the cage body
to create a box shape.

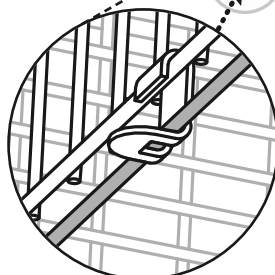

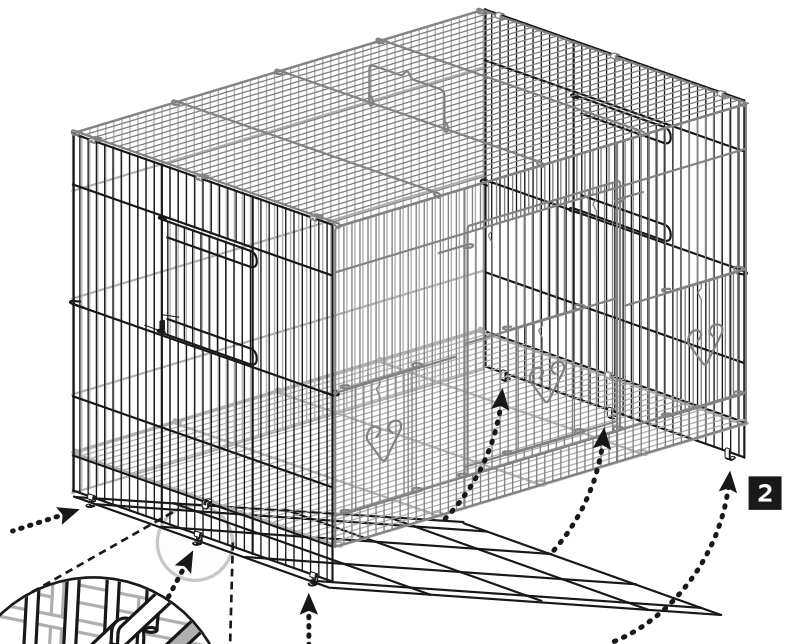

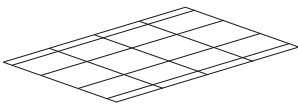

Fold the side panels down.

1 Catch the side panel hooks
over the edge wires of the back
and front panels.

2 Hook the tab on the floor grille
over the corresponding wire.

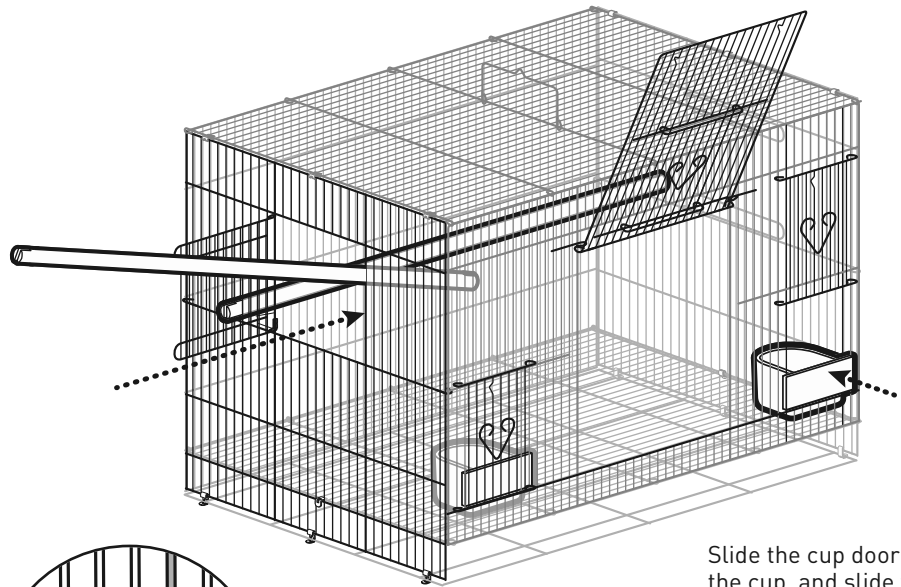

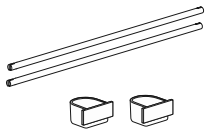

2 PIECES

At one end, catch the **base grille** over
the tabs. Rotate the grille up and catch
over the tabs on the opposite side.

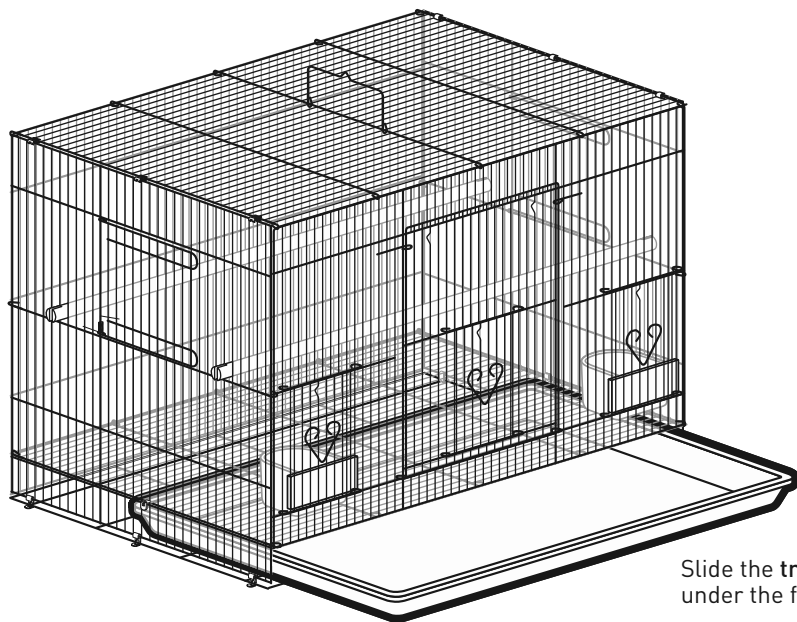

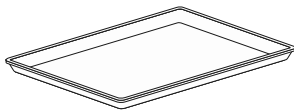

3 PIECES

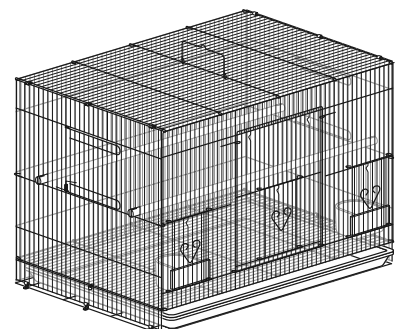

Slide the perches in through the side door, and insert the perch slots over vertical wires. Settle the perch down onto a horizontal wire for stability.

Slide the cup door up, insert the cup, and slide the door down over the cup back, to hold it in place.

4 PIECES

Slide the tray in place under the floor grille.

Assembly completed.
