

1 PIECES

With the cage **UPSIDE DOWN**, unfold the **cage body** to create a box shape, then fold the sides up:

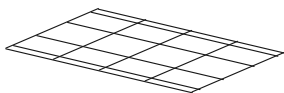

1 Catch the side-panel hooks over the edge wires on front and back panels.

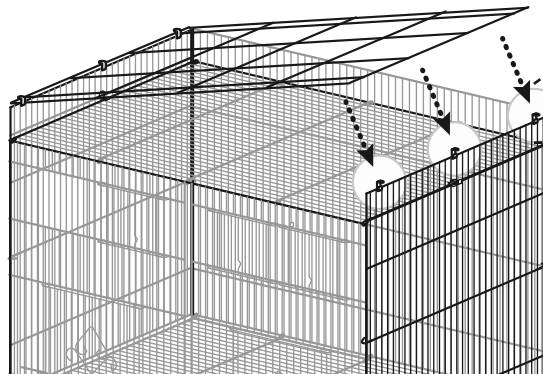

2 Hook the tab on the floor grille under the 2nd horizontal wire.

3 Repeat steps on the other end.

2 PIECES

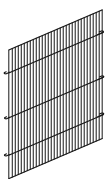

1 Catch the base grille under the hooked tabs.

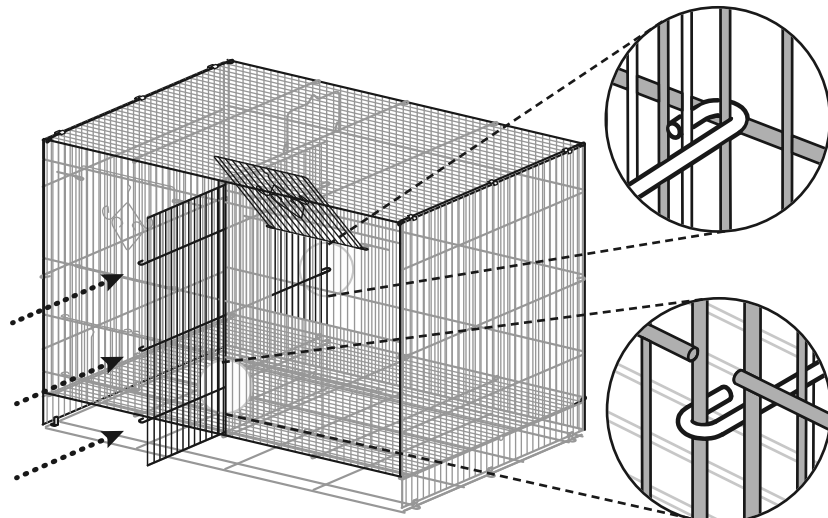

2 Catch the base grille under the hooked tabs.

3 PIECES

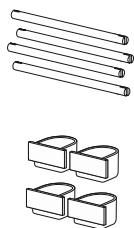

Turn the cage right-side-up. Slide the **divider** down the middle, in the open slot:

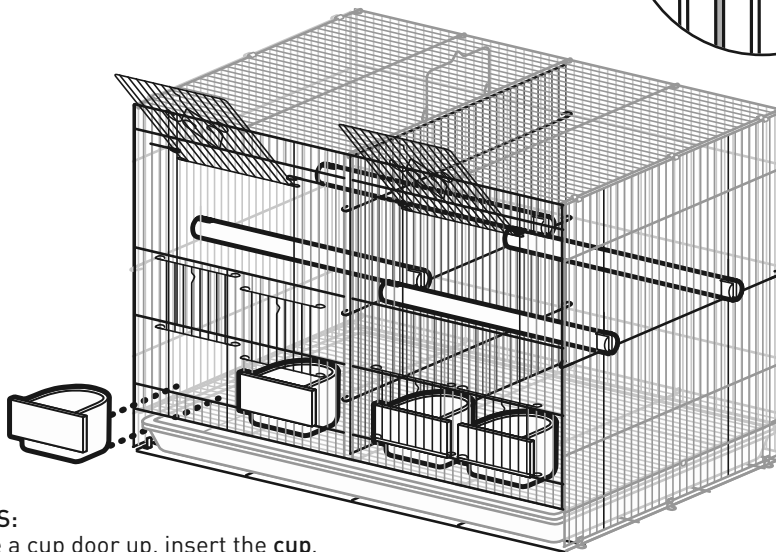

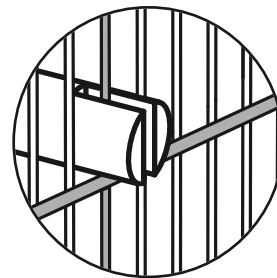

At the back, catch all the hooks over the vertical wire.

At the front, catch all the hooks over the vertical wire.

4 PIECES

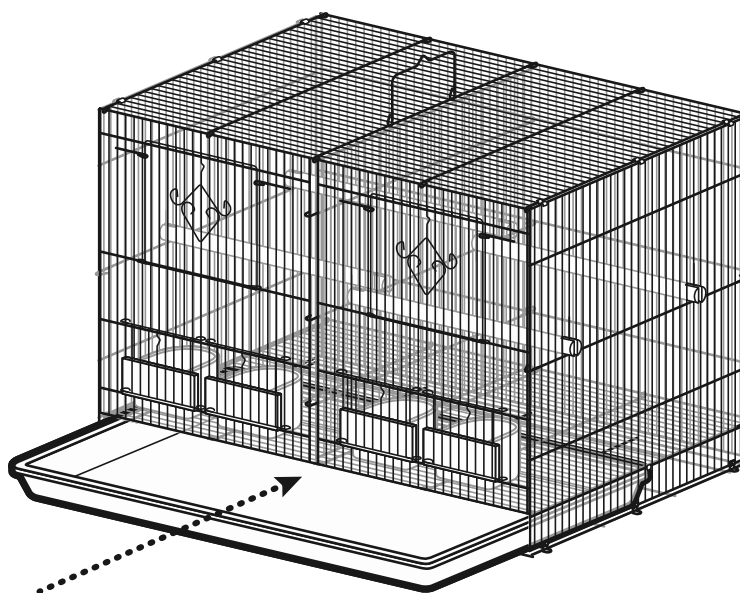

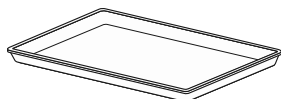

PERCHES:
Insert the **perch** slot over a vertical wire at each end and settle the perch down onto a horizontal wire for stability.

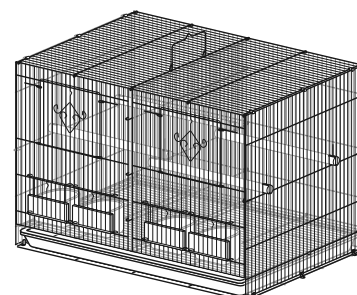

CUPS:
Slide a cup door up, insert the **cup**, and slide the door down over the cup back, to hold it in place.

5 PIECES

Slide the **tray** in place under the floor grille.

Assembly completed.
